

The COVER recliner chair is the perfect choice for those seeking maximum comfort combined with ease of use. Reclining manually or through a motor and remote control, its most advanced version is equipped with the lift function, making it easier for users to stand up. It features an adjustable headrest and serves as the perfect complement in any relaxation or reception area.

## Use

Suitable for relaxation areas.

## Seat and backrest

Internal structure made of solid wood, with a seat and backrest suspension system using highly durable elastic straps. Adjustable headrest. Covered with flexible, high-density, and high resilience (HR) polyurethane foam.

### Armrests

Internal structure made of solid wood covered with flexible, high-density, and high resilience (HR) polyurethane foam.

### Mechanisms

Manual recliner chair: the user can manually adjust the coordinated inclination of the backrest and footrest. Unlocking through a side lever.

Electric recliner chair: the user can adjust the desired inclination thanks to a remote control. Electrically powered.

During the opening, by keeping the button pressed, the user can complete the movement to the final relaxation position or interrupt it at any intermediate points. Once closed, the recliner returns to the sitting position.

Electric recliner chair + lift: the user can adjust the desired inclination using a remote control. Electrically powered.

During the opening, by keeping the button pressed, the user can complete the movement to the final relaxation position or interrupt it at any intermediate points. Once closed, using the same button, the user can continue the movement until the standing position.

Double motor electric recliner chair + lift: the user can adjust the desired inclination using a remote control. Electrically powered.

During the opening, by keeping the button pressed, the user can complete the movement to the final relaxation position or interrupt it at any intermediate points. Once closed, using the same button, the user can continue the movement until the standing position.

## Upholstery

Choose from our wide range of waterproof vinyl fabrics with antimicrobial, antibacterial, and antifungal protection.

## Certifications

Seniorcare Interiors holds the ISO 9001 and ISO 14001 certifications, attesting that its work processes maintain a high standard of quality, covering the entire product lifecycle from the design phase to production and subsequent distribution of the product.

Please consult the SENIORCARE finishing chart for information about the certifications of the fabrics.

COVER Recliner	CODE	height	width	depth	depth abierto	seat height	arm. height
