

## MADISON

The MADISON collection is characterised by its versatility, functionality, and sturdiness. The collection presents an extensive variety of models including chairs, armchairs, sofas, as well as various accessories. They are available in different backrest heights and feature adjustable movement.

### Use

Waiting areas, dining rooms, resting rooms, transfers.

### Structures

Base made of solid, first-quality beechwood with rounded edges throughout its perimeter, for user safety. Forward-positioned armrests to facilitate user reintegration. The polyurethane varnishing is done in a 3-layer process.

### Seat

Interior seat made of compacted particle board covered with flexible, high-density, and HR polyurethane foam. Attachment to the structure at 4 points.

### Backrest

Wooden skeleton with an ergonomic shape for a perfect adaptation to the user's back. Covered with flexible, high-density, and HR polyurethane foam. Possibility of winged backrest or split backrest.

### Mechanisms

Madison with gas-adjustable backrest: movement facilitated by a gas piston with easy control via a lever from the seater position.

Madison with gas-adjustable backrest and footrest: the armchairs feature 2 gas pistons that are operated by 2 levers from the seated position, allowing independent reclining of the seat and backrest.

Madison with manual recliner allows manual adjustment of the backrest in 4 positions. The seat is equipped with a mechanism that enables the modification of the reclining angle for user comfort.

### Transit

The TRANSIT versions are equipped with high-quality 10mm diameter wheels, two of which have brakes, allowing the chair to be locked in place when at rest. All versions have foldable footrests for added comfort during transportation. The TRANSIT armchairs are available in fixed versions, gas-adjustable backrest, gas-adjustable backrest and footrest, and manual adjustment.

**Footrests**

Fixed footrests: base made of solid first-quality beechwood with rounded edges throughout its perimeter for user safety. The polyurethane varnishing is done in a 3-layer process. Supporting base made of compacted particle board covered with flexible, high-density, and HR polyurethane foam. Attachment to the structure at 4 points.

Mobile footrest: structure made of solid, first-quality beechwood with rounded edges throughout its perimeter, for user safety. Supporting base made of ergonomically curved laminated beechwood. The polyurethane varnishing is done in a 3-layer process. Interior seat covered with flexible, high density, and HR polyurethane foam. Attachment to the structure at 2 points, allowing the angle to be adjusted according to the user's needs.

**Accessories**

Collection of adjustable headrests and lumbar supports secured with Velcro for a perfect fit on any armchair. Interior made of flexible, high-density, and HR polyurethane foam.

**Upholstery**

Choose from our wide range of waterproof vinyl fabrics with antimicrobial, antibacterial, and anti-fungal protection.

**Certifications**

Seniorcare Interiors holds the ISO 9001 and ISO 14001 certifications, attesting that its work processes maintain a high standard of quality, covering the entire product lifecycle from the design phase to production and subsequent distribution of the product.

Please consult the SENIORCARE finishing chart for information about the certifications of the fabrics.

MADISON complies with the UNE EN 16139 - 2013 standard for furniture. This standard ensures resistance, durability, and safety requirements for non-domestic seating.

Seniorcare Interiors is certified  
to ISO 9001 and ISO 14001 standards.
