

SENTA is a sleek and timeless designed armchair that combines wood and upholstery, bringing warmth and exclusivity to any environment.

Use

Waiting rooms, dining rooms and resting areas.

Structures

Base made of solid, first-quality beechwood with rounded edges throughout its perimeter, for user safety. The polyurethane varnishing is done in a 3-layer process.

Seat

In its upholstered version, the seat is made of particle board and covered with flexible, high-density and HR (high resilience) polyurethane foam. Attachment to the structure at 4 points.

In the wooden version, it is made of curved beech wood with an ergonomic design. The varnishing is done in a 3-layer process.

Backrest

In the upholstered version, the interior is a wooden frame with an ergonomic shape for a perfect adaptation to the user's back. Covered with flexible, high-density, and HR (High resilience) polyurethane foam.

In the wooden version, it is made of curved beech slats with an ergonomic design. The polyurethane varnishing is done in a 3-layer process.

Upholstery

Great choice from our wide range of waterproof vinyl fabrics with antimicrobial, antibacterial, and antifungal protection.

Certifications

Seniorcare Interiors holds the ISO 9001 and ISO 14001 certifications, attesting that its work processes maintain a high standard of quality, covering the entire product lifecycle from the design phase to production and subsequent distribution of the product.

Please consult the SENIORCARE finishing chart for information about the certifications of the fabrics.

Seniorcare Interiors is certified to ISO 9001 and ISO 14001 standards.
