

The TECNO CLINIC orthopaedic adjustable bed, with 4 articulation planes, is designed to meet the needs of individuals affected by back pain, arthritis, or other mobility issues. The beds are adjustable to provide optimal comfort in all areas of the body. Using a remote control, it is possible to combine independent movements of the head or foot area. Available with fixed legs, adjustable legs, or with a lifter.

Use

Electric bed for elderly care facilities, hospitals, and homes.

Mechanisms

Bed base

Electrically powered and operated through remote control, this bed features 4 articulation planes. As a safety precaution, the remote is equipped with a 9 V battery for resetting the bed in the event of a power failure. The bed frame is crafted from 50 mm steel tubing, while the articulated bed base is assembled with 30 x 20 mm tubing and features 24 beechwood slats supported by pivoting rubber supports. All metal components are finished with aluminium epoxy paint.

Legs and lifter

Fixed legs: made of steel with a 35 cm height, finished in aluminium epoxy paint. Adjustable height legs made from steel with an aluminium epoxy paint finish. Manually adjustable from 36 to 57 cm.

Lifter: electric lifter, operated through the same remote control as the bed base, made of steel tubing with epoxy paint finish. Equipped with a 125 mm anti-static wheel assembly with a locking system. Adjustable height ranging from 45 to 89 cm.

Complementary accessories

Side rails: constructed with steel bars finished in aluminium epoxy paint, mounted on vertical supports made of thermoplastic material with high impact resistance, allowing for easy folding.

Fixing kit: zinc-plated metal hardware necessary for attaching headboard and footboard panels to the bed.

Lifter: made of stainless steel, adaptable to any bed in the TECNO CLINIC collection.

Drip stand: made of steel, equipped with 2 hooks for I.V. bags, adaptable to any bed in the TECNO CLINIC collection.

Certifications

Seniorcare Interiors holds the ISO 9001 and ISO 14001 certifications, attesting that its work processes maintain a high standard of quality, covering the entire product lifecycle from the design phase to production and subsequent distribution of the product.

Seniorcare Interiors is certified to ISO 9001 and ISO 14001 standards.
