

Anthracite RAL 7016

Ridge, with its special expression, becomes a different and expressive feature in the modern office. It gives the impression of an interior detail, not just a recycling station. Details such as bevelled outer edges and a slight distance between the frame and top show a feel of quality and detail.

A very stable construction that is built of 22 mm MDF and lacquered in 11 standard colours. The stainless steel ramp for easy access to a 140 L waste bin is not only a practical detail but also a part of the design that stands out.

Ridge is also available in two heights, low and high. What distinguishes low and high is the slope of the upper frame. Both versions are easily emptied with the door's aximate hinges, and 135° opening. Ridge can be ordered with different recycling symbols depending on the purpose and waste.

Bottom/Gable/Top: 22 mm lacquered MDF

Door/Back: 16 mm lacquered MDF

Volume: 140 - 240 L

Overview

- A very stable construction built of 22 mm MDF and lacquered in 11 standard colours.
- Comes in two different heights.
- Easily emptied with a door that opens 135°.
- Can be ordered with different recycling symbols depending on the purpose and waste.
- Integrated bag holder in stainless steel is included.

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product.

See <http://echa.europa.eu/en/candidate-list-table>

Surface treatment

Lacquer and stain are water-based and fulfil the requirements of Tables 1 and 2.

Safety data sheets according to REACH CLP Regulation No 1272/2008 will be sent on request

Table 1: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents/hydrocarbons in surface treatment products /preparations may not exceed 1.0 % by weight	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g/m ² for office/public/outdoor environment	X

Table 2: Hazard class and hazard statement according to Regulation 1272/2008

Hazard category	Hazard statement according to regulation 1272/2008	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361, H362	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m ² of surface	X
Hazardous to the ozone layer	H420	X

Sustainability

Wood

The timber or wood-based materials meet the requirements set out in Table 3. The requirements cover traceability and responsible sourcing, as well as formaldehyde emission limits to reduce impact on the indoor environment.

Table 3: Requirements wood

Requirements	Complies
Has legal ownership and access rights	X
Follows nationally and locally applicable laws and regulations regarding use, environment, labor and welfare, health and safety, and other parties' rights	X
Pays the relevant taxes and charges related to use	X
Follows CITES regulations (only applicable to certain tree species, see the CITES website)	X
Requirements for formaldehyde emission according to E05	X

Metal

The metal used in the product meets the requirements set out in Table 6. The requirements include restrictions on certain alloys for parts intended for prolonged direct skin contact

Table 4: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI	X

Adhesive

Adhesives used in the product meet the requirements set out in Table 5. The requirements restrict VOC content and free formaldehyde.

Table 5: Requirements adhesive

Requirements	Complies
Adhesives used in the manufacture of furniture or components for furniture may contain a maximum of 10% by weight VOC	X
Adhesives used in the manufacture of furniture or components for furniture may contain a maximum of 0.2% by weight of free formaldehyde	X

Circularity

Standards the product has been tested and approved against

The product has been tested against the standard listed in Table 6 for safety, strength, durability and stability. Tested by an independent third party: RISE (Research Institutes of Sweden).

Table 6: Test standard

Standard	Scope	Complies
EN 16121:2024	Non-domestic storage furniture — Requirements for safety, strength, durability and stability	X

Product information, warranty and circularity

Developed for public environments and offices, with a focus on long service life and smooth day-to-day operation. The design makes it easy to care for, maintain and, when needed, replace parts, which can help extend its service life over time. Key product information, warranty and service options are summarised in Table 7.

Supporting longer use

- Can be disassembled for servicing and parts replacement when required.
- QR code on each bin with assembly, disassembly and care instructions.
- Contact TreCe for service options and guidance on refreshing/refurbishment.

Table 7: Product information, warranty and service options

Aspect	
Design	Studio Doms
Product guarantee	2 years*
Product information & maintenance	QR code on each bin
Recyclable	All parts can be materially recycled
Service	Contact TreCe for service options and guidance

***Warranty:** The warranty is valid from the date of delivery of the product. Invoice/order number must be quoted for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover damage in transit, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not apply if the product has been placed outdoors or in a humid environment, or if the product has been used for purposes other than those for which it is intended.

For products intended for outdoor use, the aforementioned humid environment does not apply, but the warranty period is halved for installation within 200 metres of a coastal environment. The warranty does not apply to outdoor products where surface corrosion occurs over time as this is purely aesthetic and can be remedied with touch-up paint.

General care instructions

Metal

Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/materials.

Normal/daily cleaning:

- Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth.
- Never use strong detergents, solvents or products containing abrasives.
- Remove all stains as soon as possible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.
