

PRODUCT CATALOGUE

2026

ELJ is excited to present our diverse range of products, each crafted for various configurations, functions, and applications. What truly sets our product lines apart is our dedication to quality—our frames are manufactured in highly automated factories, utilising carefully selected components from trusted suppliers, ensuring high quality and long life cycles.

Our product series are designed and developed with a focus on modularity, making it easy to adapt and change as your needs evolve.

We invite you to explore our selection below..

Designed in Sweden - Manufactured Globally

We take great pride in our Swedish heritage and the journey that has shaped us into a global brand. Our automated production facilities creates efficiency in manufacturing, enabling us to deliver outstanding products while building a solid foundation for continuous development.

Industry Leaders

Since 1999, we have been designing and developing world-class height adjustable furniture of which continues to serve our customers today. One of our core strategies from the beginning has been owning our supply chain, allowing us to meet market demands without dependence on external factors. This approach ensures quality, certification, and full traceability in every product we deliver.

Partnerships

We continuously strive to provide a customer service that exceeds expectations. By actively listening to feedback from our customers our teams work to improve every step of your experience with us.

Sustainability & Circularity

Sustainability is deeply embedded in our DNA, and circularity is at the heart of our efforts to build a responsible business and a better shared future. We recognize our responsibility to improve workplaces, strengthen partnerships, and, most importantly, protect our planet. To drive this mission forward, we carefully select suppliers based on sustainability-focused criteria. Together, we can create meaningful change.

Well-being

Workplace ergonomics starts with a conscious commitment to health. Our Desk Frames are integrated* into our ROL Wellness program, offering a quick and easy setup that encourages movement throughout the workday. By alternating between sitting and standing, you can take a proactive approach to improving your wellbeing.

TELLUS FLEX
Fixed desk frame

TELLUS FLEX

Fixed desk frame

For workplaces that don't require height adjustability, **TELLUS FLEX** is a cost-efficient and durable solution. Its fixed frame design delivers stability and reliability, making it an ideal choice for businesses seeking a budget-friendly yet high-quality workstation.

Expandable

TELLUS FLEX offers expandability with additional columns, making it a versatile solution for various workspace needs.

Production

Manufactured in both Europe and the US, it ensures consistent quality and efficient lead times.

Packaging

Optimised for logistics, 20 frames fit per pallet, ensuring cost-efficient transportation and streamlined inventory management.

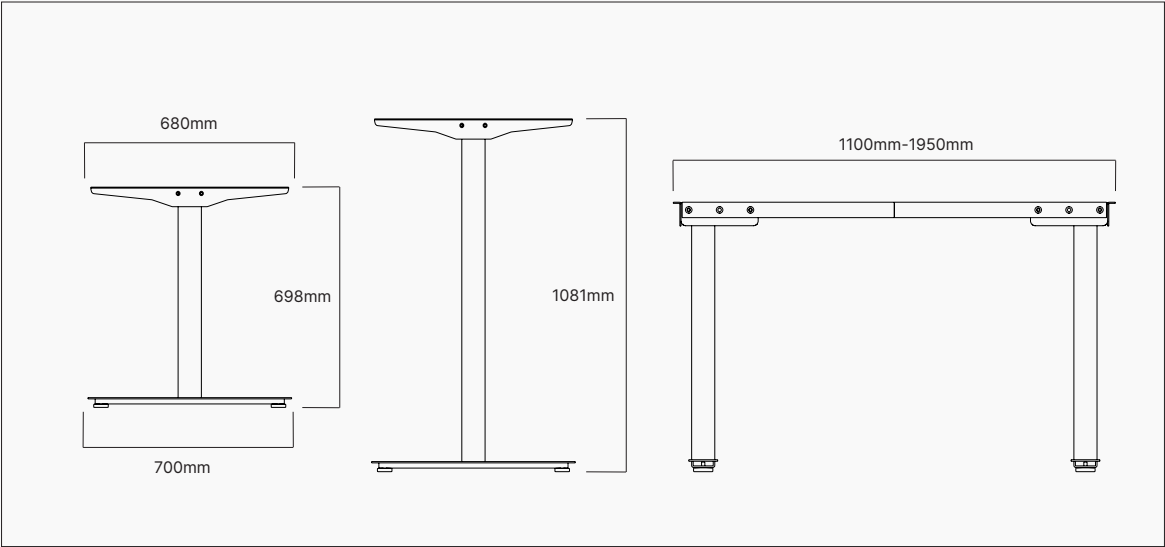

Fixed

A fixed desk frame designed for workplaces where height adjustability is not needed.
