

Kite mini

Design | Annica Doms

Pearl white RAL 1013

Kite mini is based on the same shape and is an exact copy of Kite, but in reduced size. Its' shape makes it ideal for placement in corners of varying angles.

Kite mini is intended for smaller spaces, for example under desks, hotel rooms or smaller conference rooms. It also has a wall bracket, which means that it can be placed on a wall as a single or in pairs to free up floor space.

Kite mini has no fittings and requires no tools, which means you can assemble it by hand in just 4 minutes. Thanks to its thoughtful design, the sides simply click together and it's ready to use.

Frame: Powder coated steel plate

Lid: Vacuum-foiled MDF with screen print

Volume: 10 L

Overview

- Innovative shape designed for modularity in different configurations.
- Holds angles of 60°, 90° and 120° which makes it ideal for placement in corners of varying angles.
- Lid comes in six different designs with varying shapes for different types of waste.
- The frame in MDF comes from a responsible forestry, meets the requirements for <65% E1 formaldehyde and CARB2.
- The frame in powder coated steel plate is manufactured in Sweden and consist of 20% recycled (pre-consumer) material.
- Easy to assemble, no tools needed.

Frame

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product. See <http://echa.europa.eu/en/candidate-list-table>

Surface treatment

Lacquer and stain are water-based and fulfil the requirements of Tables 1 and 2.
Safety data sheets according to REACH CLP Regulation No 1272/2008 will be sent on request

Table 1: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents/hydrocarbons in surface treatment products /preparations may not exceed 1.0 % by weight	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g/m ² for office/public/outdoor environment	X

Table 2: Hazard class and hazard statement according to Regulation 1272/2008

Hazard category	Hazard statement according to regulation 1272/2008	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361, H362	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m ² of surface	X
Hazardous to the ozone layer	H420	X

Sustainability

Wood

The timber or wood-based materials meet the requirements set out in Table 3. The requirements cover traceability and responsible sourcing, as well as formaldehyde emission limits to reduce impact on the indoor environment.

Table 3: Requirements wood

Requirements	Complies
Has legal ownership and access rights	X
Follows nationally and locally applicable laws and regulations regarding use, environment, labor and welfare, health and safety, and other parties' rights	X
Pays the relevant taxes and charges related to use	X
Follows CITES regulations (only applicable to certain tree species, see the CITES website)	X
Requirements for formaldehyde emission according to E05	X

Metal

The metal used in the product meets the requirements set out in Table 4. The requirements include restrictions on certain alloys for parts intended for prolonged direct skin contact

Table 4: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI	X

Circularity

Product information, warranty and circularity

Developed for public environments and offices, with a focus on long service life and smooth day-to-day operation. The design makes it easy to care for, maintain and, when needed, replace parts, which can help extend its service life over time. Key product information, warranty and service options are summarised in Table 5.

Supporting longer use

- Designed to be expanded and adapted over time.
- Can be disassembled for servicing and parts replacement when required.
- QR code on each bin with assembly, disassembly and care instructions.
- Contact TreCe for service options and guidance on refreshing/refurbishment.

Table 5: Product information, warranty and service options

Aspect	
Design	Annica Doms
Product warranty	2 years*
Product information & maintenance	QR code on each bin
Recyclable	All parts can be materially recycled
Service	Contact TreCe for service options and guidance

***Warranty:** The warranty is valid from the date of delivery of the product. Invoice/order number must be quoted for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover damage in transit, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not apply if the product has been placed outdoors or in a humid environment, or if the product has been used for purposes other than those for which it is intended.

For products intended for outdoor use, the aforementioned humid environment does not apply, but the warranty period is halved for installation within 200 metres of a coastal environment. The warranty does not apply to outdoor products where surface corrosion occurs over time as this is purely aesthetic and can be remedied with touch-up paint.

General care instructions

Metal

Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/materials.

Wood

Wood is a living material and is affected for example by seasons, heat and humidity. Direct sunlight will give surfaces permanent colour and light differences. To avoid colour shifts, all surfaces should be exposed to equal amounts of light.

Normal/daily cleaning:

- Dust dry and clean with mild soap solution or mild hand washing-up liquid. Wipe dry with a dry cloth.
- Never use strong detergents, solvents or products containing abrasives.
- Remove all stains as soon as possible and wipe the surface dry after cleaning.

Note! Use a minimum amount of water.
