LEGS

SHELL

Size **6**

1 ud/box

Components

Shell:

- Polypropylene + GV
- Manufactured using injection moulding.

Metal structure:

- Steel tube Ø20x2mm. Epoxy paint with a thickness of 50µm.

Main Features

- Robust.
- Antistatic.
- Easy to clean.
- Ergonomic shell.
- Stain-resistant.

- Optional solid (non-perforated) backrest.
- Backrest opening for better ventilation.
- Optional seat panel for upholstery.

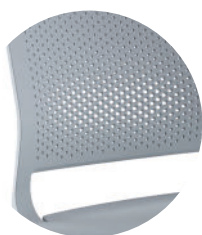

Maintenance

- Check the condition of the metal structure.
- Check the condition of the shell.
- Ensure there are no cracks or dangerous breaks.

Cleaning

- Cleaning of the metal structure: methylated spirits may be used only in extreme cases. Never use solvent.
- Remove dust with a dry cloth or brush. Clean with a sponge or cloth using neutral soap or a mixture of water and vinegar. For embedded dirt, grease residues or stains, ammonia can be used.

**Perforated
backrest**

**Non-Perforated
backrest**
